MY PROJECTS

vipplan4u project

An integrated profitable investment system with support for the commission marketing system and a dynamic profit calculation system

damcon project

An integrated system that can promote real estate offers with a dynamic display of everything in it. It also provides a subscription system. Messages with promotional offers can be sent to all subscribers and many other features.
preview
damcon.build

rafat_system project

Etisalat data management system. The employee uploads customer data and determines the location from which the data is sent. The data is displayed to the supervisor responsible for the employee and the system manager.
